

Our client says: “We have 20,000+ donor contact records!”

Our FREE analysis found they only had 1,400 complete donor records — only 7%!

Curious about the quality of your donor database?
Our **FREE** donor database analysis will tell you!

Make sure your data is current, clean, and actionable — ready for solicitation success!
Our analysis will show you the data counts and following information on your records:

- ▶ **Those with and without a phone number** (including incomplete phone numbers and missing area codes)
- ▶ **Those with and without an email address** (and identify incomplete or mistyped email addresses)
- ▶ **Those with and without a complete mailing address**
- ▶ **Those with and without donor history or suggested “ask”**
- ▶ **Those with complete, ready for call time records** — name, address, phone, email, and ask
- ▶ **Identify typos and misspellings**

Some good news — we can fix all these data problems
and return to you a **complete and corrected database!**
